ABOUT YOUR RELATIONSHIP PROFILE

This report analyzes the personalities of both individuals to assess their compatibility. It also offers suggestions for ways to mitigate the stress or damage that can come from differing personalities and perspectives.

When you are in a relationship, you come to know each other more deeply over time. At first friction is rare. As time goes by and you discover additional sides to your partner, you become aware of personality traits you appreciate as well as some that rub you the wrong way. Even if you consider your relationship nearly perfect, you will experience occasional bouts of conflict.

Negative traits are almost always a cause of friction, but it is interesting to note that some qualities that are considered positive can also be incompatible. You may find this report is more critical or even harsh compared to other readings of this type. My approach is designed to throw light on differences in your chart that might benefit from a frank, unbiased examination. Ignoring potential issues can cause more damage overall than a few honest remarks in a reading.

You will probably encounter some texts that state: "The compatibility aspect in this area of the chart is already included in other parts of this report." Those texts are not repeated here because they are either redundant or offset by other conditions. This is done to offer a perspective that is as well balanced and clear as possible; repeating certain traits would place too much emphasis on them.

Hafeez and Hafeez, I hope you will appreciate the perspective of your Compatibility Report and will find it beneficial to your relationship.

Please note we use gender-neutral language when addressing individuals in our relationship readings. To some, using the singular "they," "them," and "their" may sound awkward, but we believe words matter. We aspire to include everyone.

THE LIFE PATH

Your Life Path number is considered the single most significant information available in your Personality Chart. It is derived from the total of all numbers found in your date of birth. However, it is important to keep in mind that the aspects described in the next few chapters will either complement, supplement, or sometimes weaken the attributes revealed in numbers derived from your name.

Hafeez, your Life Path number is 3

You possess a great talent for creativity and self-expression. Many writers, poets, actors and musicians are born under the 3 Life Path. You are witty, possess a gift for gab, and savor the limelight. Your talent for the expressive arts is so abundant that you may well have felt drawn to becoming an artist while still very young. Your artistic abilities can only be developed, however, through discipline and commitment to the true development of your talent. Commitment, concentration and hard work are the only means of bringing forth your talent.

Thanks to your gift for self-expression, you can be the life of the party, and the center of attention. However, you could easily squander your talent by becoming a social butterfly. Your creativity is the gift that can give you the comfort and luxury you desire, but not without continual focus and discipline. You are optimistic and possess the resilience to overcome many setbacks.

You are socially active, popular, and inspire people with your sunny "happy go lucky" attitude. You can be generous to a fault. Many people born under the 3 Life Path have difficulty handling money because they can be disorganized and not particularly serious about their responsibilities. You are emotional and vulnerable. When hurt, you withdraw into a cloud of silence, eventually emerging from your reticence with jokes and laughter that cover up your true feelings. You can become moody and cynical when depressed. You can succumb to sarcastic remarks, which can be painful to those around you.

When used positively, your talent for self-expression can be a great inspiration force in the world, uplifting others, and bringing much success and happiness to you.

Hafeez, your Life Path number is 3

Hafeez, your Life Path is also a 3; the same as Hafeez's

HOW YOUR LIFE PATH NUMBERS COMPARE

Your Life Path number is the most important influence in your chart. As such, their compatibility is very important to the well being of your relationship.

Hafeez and Hafeez, your Life Path Compatibility is 3 and 3

Hafeez and Hafeez, you both have the creative, happy-go-lucky 3 in this part of the chart, which indicates you carry on lively conversations and inspire and motivate each other in an energetic environment. You joke easily and appreciate each other's humor. You enjoy one another's company while still participating in an active social life.

On the surface, there is little negative to say about this combination. However, a deeper look suggests that unless you consistently work on it, the happy-go-lucky nature of your relationship could become the root of persistent problems. Sharing the 3, you probably both tend to gloss over rough spots that emerge. This area of the chart indicates a strong preference for reveling in the sunny days without noticing the shadows you cast. It is important that you address relationship issues as they arise before they accumulate and become insurmountable.

The influence of the 3 is only dominant in some aspects of your relationship; other more serious numbers also play in your chart. They can help you work through the emotional turmoil that is inevitable. Watch for subtle signs indicating something might be bothering your partner because, although you are both excellent communicators, you do not always use this talent to express your deeper, private, feelings. Stay attentive. If you suspect something is up - even though your partner appears happy-go-lucky - take time to have a frank and intimate talk about what is going on.

Another potential issue for this combination is that fun can become too high a priority, overshadowing important responsibilities and duties. The number 3 is scattered, unfocused, and impulsive, all common traits in creative people and the creative process. The 3 lets the mind wander in search of new, creative ideas. However, without effort and discipline those traits can work against you. To create the material security that will allow you to experience the fun and joy you both desire, you may need to remind one another to stay focused and keep your eyes on the prize.

Hafeez and Hafeez, you clearly have many compatible aspects in your relationship. Just ensure you guard against the less desirable traits of the 3 (irresponsibility, lack of focus, and a sometimes-frivolous attitude).

THE EXPRESSION

Your Expression number, calculated from your full name at birth, reveals the orientation or goal of your life. Some numerologists refer to this as your Destiny number because it represents a lifelong target at which you are aiming. Thus, the Expression number, to some extent, reveals the person you aim to be.

Your Expression is the most influential of the three characteristics that make up who you are. It is also the number with the most influence on your choice of career, although other aspects are important as well.

Hafeez, your Expression is 2

You have a great talent for working with others; you possess tact and refinement. You have a highly developed intuition. This provides you with insight into personalities and situations. Therefore, you act with tact and subtle persuasion. You possess a kind of radar, avoiding the landmines within another's personality, yet bringing out their goodwill. These abilities make you the perfect diplomat. You are a good counselor with an inborn talent for psychology and finely tuned intuition.

Your abilities are better expressed while working with others than by working alone. In the same way, you perform better in a partnership than in a leadership role. You seek balance and peace in all relationships and situations. The key to your personality is sensitivity, but there are two sides to the coin: You are able to perceive the thoughts and emotions of others and can work gently with others for a mutually shared goal. This makes you a great asset in any group endeavor. However, your sensitivity makes you vulnerable. You can be thrown off balance by an unkind word, a conflict, or by hostile conditions at work. You are far more upset by these conditions than people without your sensitivity. While others appear to be enduring troubled times with a modicum of turmoil, you suffer the turbulence of life as if your very survival were at stake.

In difficulties, you tend to persevere and steadily erode the resistance. You are like a gentle wind that shapes the rock.

You are friendly and open-minded. You are a great support person, pulling the best out of those around you. You are the power behind the throne. You are indispensable to the leadership of

another, providing insight and advice that is essential. Yet, despite the invaluable service you provide, you often do not get the credit and recognition you deserve, which can be frustrating. Your natural modesty and the enjoyment you get from being an important asset is usually satisfaction enough for you.

Close relationships are essential to your happiness. When single, you dream of finding your "soul mate." When married, you are concerned with your spouse's needs, emotions, and thoughts. You are an outstanding marriage partner, giving, thoughtful, and conscious of meeting the needs of your loved one. You provide great support for your spouse's career. You are a passionate lover.

Parenthood is not an easy role for you, probably because you lack the will to enforce discipline and need a tranquil, delicate, and harmonious environment.

You are blessed with a high degree of musical talent. You have a good sense of rhythm and harmony.

HOW YOUR EXPRESSION NUMBERS COMPARE

More than any other number in your chart, your Expression number reflects who you are as a whole person on a deep level (rather than the "face" you show to the world, described by your Personality number).

It cannot be over-emphasized how important it is to recognize that the same number in a different area of your chart will affect you differently. There may be times you read something that seems to directly contradict an earlier statement. Yet, if you take time to carefully think about the opposing information you might recognize that, being the complex individual you are, you carry the same contradictions. This is natural and true for all of us. You may excel at organization in one area of your life, while chaos rules in another. You may be tactful and sensitive in one setting, but direct and confrontational in another.

Be aware that it is more difficult to overcome negative traits you recognize in yourself when they are found in this part of the chart, than when they are found under the Life Path description.

Hafeez and Hafeez, your Expression Compatibility is 2 and 2

This aspect of the chart tells us both of you have a sensitive, vulnerable side. Sometimes this is favorable, but it can prevent issues from being resolved. There may be occasions when you step around issues too carefully, concerned about hurting the other. This can cause issues to fester and erode the foundation of your relationship. Try not to walk away from problems because you do not want to rock the boat. It is almost always better to face them head on. Although your concern about your partner's feelings are sincere, you should both guard against avoiding confrontation altogether.

As two people who experience emotions deeply, you are likely more vulnerable to criticism than others. This is another contributing factor in your tendency to avoid taking on important issues. If this type of avoidance persists, especially if unresolved issues have festered, you might lash out with a "below-the-belt" criticism, expressing your anger in a way that can be harmful to your relationship. This in turn makes it much more difficult to resolve underlying problems.

We all look for things we have in common, with the hope it will enhance our relationship. But the fact that you both carry a 2 in this area of the chart does not necessarily translate into an advantage. On the positive side, you easily relate to each other's emotional experiences. On the negative, your ability to commiserate can mean you are unable to "talk your partner down" during a highly emotional event.

Hafeez and Hafeez, your numbers suggest you both have the potential to use the occasional trivial lie to circumvent what you perceive as dangerous territory. This is not always a bad thing. However, unless other numbers in your chart support your ability to confront things directly when simple tact and diplomacy are not sufficient, you may end up creating distance without meaning to. Without open communication, you live in separate worlds. If you have the type of relationship where partners live their own life quite happily, this will not be as much of a concern. However, the fact that you are both people of the heart makes that scenario unlikely.

The key to maintaining a healthy relationship when both partners carry a 2 in this part of the chart is to recognize the need for scheduled heart-to-hearts. When an issue arises discuss it openly and frankly; try to avoid impulsive, dramatic discussions. Instead, let your partner know something is bothering you and ask for a good time to discuss it. Create a setting: make a cup of tea, sit in comfortable surroundings, and begin by confirming your love and commitment. Combining respect, care, and direct, honest communication can help you form a deep, long-lasting relationship.

THE PERSONALITY

The consonants of your full name at birth are the foundation of your Personality number, which is a little like a narrow entrance hall to the great room that is your true nature. It's the outer layer of your personality, the part you feel comfortable sharing. With time and trust, you invite others into the deeper aspects of your nature.

Your Personality number serves as a censoring device in terms of what you send out, as well as whom and what you allow to approach. For this reason, your Personality is usually narrower and more protective in its definition than the real you. It also gives an indication of how others perceive you.

Hafeez, your Personality number is 9

You have an impressive and aristocratic bearing. No matter how tall you are, you appear noble and upright. You are very much in control of the image you send out to others. Many actors, dancers, and other performers have a 9 Personality Number.

You are elegant, graceful, and charismatic. Many admire you. You have the kind of stature that pulls people to you or repels them intensely. Some are jealous of you and may seek to belittle you. You may encourage this to some extent by the amount of arrogance you radiate. This is a caution for all 9 Personalities -- they are sometimes aloof and hold themselves above the world. Your challenge is to come down to earth with your fellow man.

Conversely, you have a great compassion for humanity and want to dedicate yourself to improving the lot of others. You are better when dealing with the trials of the many than the trouble of a single person. You are more capable of working on the grand scale, addressing the needs of society, than on a one-to-one basis.

You are kind and sympathetic, helpful and compassionate. Behind the controlled and calm facade, you are sensitive, vulnerable and emotional.

You have excellent taste. There is a good deal of artistic talent in you that shows in your home environment and your clothing. You tend to see yourself as a guardian of society, a benevolent leader, guiding and directing your community toward a better world.

Hafeez, your Personality number is 9

Hafeez, your Personality is also a 9; the same as Hafeez's

HOW YOUR PERSONALITY NUMBERS COMPARE

Your Personality is the first aspect people notice when you first meet. Very few relationships have a chance to progress if their Personality numbers are not compatible.

Hafeez and Hafeez, your Personality Compatibility is 9 and 9

Hafeez and Hafeez, this combination often creates a partnership that goes well beyond romance. Both idealists, you are sufficiently focused and have enough clarity of purpose to devote your life to a single goal, paying little or no attention to the monetary aspects. Contrary to what one might expect, this often results in financial prosperity, although not usually until somewhat later in life.

Most likely, the recognition of your similar outlooks was responsible for the initial attraction between you. Mutually inspiring endless conversations likely helped you feel your dreams were attainable and something you could pursue together. Your bond is strong and should not weaken over time since you thrive on sharing each other's experiences. Your compatibility is powerful and strengthens each of you as individuals. You may find yourselves choosing almost identical careers, perhaps even within the same organization or institution. Each of these similarities makes others see you as an unbreakable couple.

However, some pitfalls may exist, even in this extremely compatible combination. Hafeez and Hafeez, in extreme cases, the number 9 shows a tendency to believe in concepts and ideals to such an extent that it becomes an obsession. Self-righteousness, narrow-minded thinking, and religious fanaticism are common, nor are arrogance, pride, and a superficial confidence. This helps explain the fact that the number 9 is often found among political and religious extremists. Excessive belief in your ideals could also cause problems in your relationship, especially if your concepts differ or you devote 'too much time' to an organization or study your partner does not support. It is important for both of you to remain open to the ideas of others, to respect differing opinions, and to remain humble.

Hafeez and Hafeez, the only real danger in a relationship between 9's found in this part of the chart appears when one or both of you loses the ability for honest self-criticism and self-examination. It is essential to keep in mind that even with idealism, moderation is required - in fact, it is the keyword to safeguarding this otherwise excellent number combination.

MATURITY NUMBER

Your Maturity number indicates an underlying wish or desire that gradually surfaces at around age 30 to 35. A direction begins to emerge as you gain a better understanding of yourself. With this self-knowledge comes a greater awareness of who you are, and the direction you want to set for your life.

Hafeez, your Maturity number is 5

There is no slowing you down as you enter maturity. Your influence grows as you become more dynamic and versatile. You now begin to realize your lifelong goal of freedom. There will be travel and adventure, exciting and unexpected events. Your originality, creativity, and verbal abilities grow stronger. You will become interested in areas you never before considered. You may tend to become restless and impatient. You may quickly lose interest or become bored with projects that progress slowly. Perseverance is tested, especially because you may find it easy to abandon things that no longer hold your interest. You will have to work to maintain your concentration, discipline, and focus. Do not scatter your energy over to many interests. This is especially the case with people who have several 5s in their chart, especially among the core numbers.

For those with few fives, the increasing ability to adapt to change and the willingness to take risks provides much spice to life.

Hafeez, your Maturity number is 5

Hafeez, your Maturity is also a 5; the same as Hafeez's

HOW YOUR MATURITY NUMBERS COMPARE

Your Maturity number becomes more dominant with age. The texts below become increasingly important after about age 40.

Hafeez and Hafeez, your Maturity Compatibility is 5 and 5

Hafeez and Hafeez, you both have a 5 in this part of the chart, a number full of contradictions no matter where it is found. For example, the 5 is sensual, freedom loving, tends to overindulge, and does not like to be tied down. Paradoxically, it is also loyal and less likely to cheat than any other

number. The 5 will avoid commitment if possible but takes fidelity very seriously once it finally commits.

You probably recognize these traits in yourself and your partner. You both take commitment seriously yet are willing to give each other space and freedom. You are tolerant, easy going, and flexible. Your mutual understanding is one of the many strong benefits to this combination that will help you weather many storms. However, there is a dangerous side to this relationship (as there is in many).

Hafeez and Hafeez, the danger does not come from outside, but from inside. You are both adventurous people who dislike routine, preferring change and variety in your lifestyle and environment. Even major changes such as switching careers or moving to another town - even when there is no real need for a change. This attraction to freedom and adventure has the potential to create trouble. Your desire to try new things and to test boundaries might be expressed in a somewhat wild life style that includes overindulgence in drugs, alcohol or other vices.

In most partnerships, if one partner has a "wild streak" the other can help to counter it. But in sharing the dynamic 5 energy, you could both venture into the danger zone with no one to prevent things from getting out of control.

Hafeez and Hafeez, you have much in common and have all the ingredients for a long, happy, and fun-filled relationship. However, to prevent a slow slide into a lifestyle that could be quite difficult to emerge from, you will both need to be painfully honest with yourselves and each other. If you see yourself or your partner moving toward an unhealthy habit, act swiftly to address it before it gets out of control. Have fun, but do not allow your desire for freedom and adventure to pull you too far in the wrong direction. The 5, more than any other number, requires discipline.
