ABOUT YOUR RELATIONSHIP PROFILE

This report analyzes the personalities of both individuals to assess their compatibility. It also offers suggestions for ways to mitigate the stress or damage that can come from differing personalities and perspectives.

When you are in a relationship, you come to know each other more deeply over time. At first friction is rare. As time goes by and you discover additional sides to your partner, you become aware of personality traits you appreciate as well as some that rub you the wrong way. Even if you consider your relationship nearly perfect, you will experience occasional bouts of conflict.

Negative traits are almost always a cause of friction, but it is interesting to note that some qualities that are considered positive can also be incompatible. You may find this report is more critical or even harsh compared to other readings of this type. My approach is designed to throw light on differences in your chart that might benefit from a frank, unbiased examination. Ignoring potential issues can cause more damage overall than a few honest remarks in a reading.

You will probably encounter some texts that state: "The compatibility aspect in this area of the chart is already included in other parts of this report." Those texts are not repeated here because they are either redundant or offset by other conditions. This is done to offer a perspective that is as well balanced and clear as possible; repeating certain traits would place too much emphasis on them.

Test and Test last new, I hope you will appreciate the perspective of your Compatibility Report and will find it beneficial to your relationship.

Please note we use gender-neutral language when addressing individuals in our relationship readings. To some, using the singular "they," "them," and "their" may sound awkward, but we believe words matter. We aspire to include everyone.

THE LIFE PATH

Your Life Path number is considered the single most significant information available in your Personality Chart. It is derived from the total of all numbers found in your date of birth. However, it is important to keep in mind that the aspects described in the next few chapters will either complement, supplement, or sometimes weaken the attributes revealed in numbers derived from your name.

Test, your Life Path number is 6

You possess great compassion and seek to be of service to others. You have concern for the weak and the downtrodden. You are a healer and a helper to others. You are capable of giving comfort to those in need and will frequently offer a shoulder for others to cry on. Your task in life is to develop the tools necessary to be truly helpful to others, rather than to simply be a sympathetic ear.

You must find the balance between help and interference. In the same way, you must learn the delicate art of the counselor who knows when to leave the struggle to others and when to avoid taking away the necessary experiences and lessons of life. You are naturally balanced. Therefore, you are well equipped to support and ground others in times of trial.

It is in your nature to take on responsibility -- you often fill the void left by others -- and do not turn away from personal sacrifice. At times, you may feel overburdened by the travails of others. However, the love others bestow upon you is your well-deserved reward. You try to maintain harmony within the family or group, balancing and fusing divergent forces. You seek marriage and are often a wonderful parent, offering warmth, protection, and understanding to children.

You are generous, kind, and attractive. You are often admired even adored which baffles you. You are humble and yet you carry a deep pride. You move well and gracefully but will have to work to stay in shape. Seek out physical exercise and limit the sweets and dairy you crave to keep yourself from becoming plump and round.

When young, you must be careful not to choose partners for the wrong reasons. Do not let sentimentality influence your decision, especially those involving the choice of a spouse. You need to be needed but must learn to discriminate between those you can help and others who are made weaker by your care. After all, it is in your nature to be attracted to the weaker brothers and sisters among us.

The temptation, and the danger for you, is to think of yourself as the savior of the world, carrying

the burdens of others on your shoulders.

You are blessed with musical talent, as well as in the visual and performing arts. However, your creativity may well be suppressed due to your willingness to sacrifice, or your inability to fully appreciate your talents.

This is not to say that you cannot excel in these areas; on the contrary, you have the talent, and with effort you can make a success in a number of artistic fields. You also have enormous talent in business. You are blessed with a great deal of charm and charisma, which you use effectively to attract the people and support you need.

Test last new, your Life Path number is 3

You possess a great talent for creativity and self-expression. Many writers, poets, actors and musicians are born under the 3 Life Path. You are witty, possess a gift for gab, and savor the limelight. Your talent for the expressive arts is so abundant that you may well have felt drawn to becoming an artist while still very young. Your artistic abilities can only be developed, however, through discipline and commitment to the true development of your talent. Commitment, concentration and hard work are the only means of bringing forth your talent.

Thanks to your gift for self-expression, you can be the life of the party, and the center of attention. However, you could easily squander your talent by becoming a social butterfly. Your creativity is the gift that can give you the comfort and luxury you desire, but not without continual focus and discipline. You are optimistic and possess the resilience to overcome many setbacks.

You are socially active, popular, and inspire people with your sunny "happy go lucky" attitude. You can be generous to a fault. Many people born under the 3 Life Path have difficulty handling money because they can be disorganized and not particularly serious about their responsibilities. You are emotional and vulnerable. When hurt, you withdraw into a cloud of silence, eventually emerging from your reticence with jokes and laughter that cover up your true feelings. You can become moody and cynical when depressed. You can succumb to sarcastic remarks, which can be painful to those around you.

When used positively, your talent for self-expression can be a great inspiration force in the world, uplifting others, and bringing much success and happiness to you.

HOW YOUR LIFE PATH NUMBERS COMPARE

Your Life Path number is the most important influence in your chart. As such, their compatibility is very important to the well being of your relationship.

Test and Test last new, your Life Path Compatibility is 6 and 3

Test and Test last new, you are clearly a creative couple. Test last new has the type of creative energy and sense of humor everyone enjoys, and Test emanates the warmth and self-sacrificing love that easily wins the hearts of family and friends. You are likely a popular couple with an active social life and a large circle of friends.

Test, the number 6 lends you the natural ability to draw loyalty and devotion from others that will last a lifetime. The 6 is often called the motherhood or fatherhood, number. Healing and comforting are second nature to you, and you will gift it unconditionally and indiscriminately.

Test last new, your number 3 is also a very giving and popular number - more playful and creative than the 6, but less grounded and disciplined. Your energy is more impulsive. Unlike your partner, you probably do not have much patience for emotional issues. You can be a great shoulder for people to cry on if it does not take more than about two minutes. This is mainly due to your naturally optimistic and lighthearted nature, which leads you to expect the same resilient response to difficulty from others. This could make you less responsive to Test's need to share things on a deeper level.

Both of you will need to accept your differing perspectives and the approach you take to sensitive matters. Test last new, recognize that Test is more easily affected by matters of the heart than you feel is sensible. And Test try not to be wounded by your partner's light-hearted demeanor; it does not, necessarily, convey disinterest.

Surprisingly, however, the most common pitfall when a 3 and 6 are found in this part of the chart is not the lack of emotional involvement native to 3, but the heightened emotion experienced by the 6. Test, you tend to become so absorbed with the wellbeing of those you love that they sometimes feel smothered. You want to do everything for everybody. This can irritate Test last new since they require space and freedom in the relationship.

My advice: Test last new, do your best to be sensitive to the emotional needs of your partner; and Test, ensure you are giving Test last new enough room to move and air to breathe.

THE EXPRESSION

Your Expression number, calculated from your full name at birth, reveals the orientation or goal of your life. Some numerologists refer to this as your Destiny number because it represents a lifelong target at which you are aiming. Thus, the Expression number, to some extent, reveals the person you aim to be.

Your Expression is the most influential of the three characteristics that make up who you are. It is also the number with the most influence on your choice of career, although other aspects are important as well.

Test, your Expression is 1

You are a natural leader, independent and individualistic. You are extremely ambitious, original, and courageous. You employ new and unproven methods. You are an explorer and an innovator. Openness to too many peripheral influences limits and frustrates you. You are self-reliant, confident, and energetic. You easily assume the role of protector. You spring into action when leadership is needed.

You possess executive abilities and are most successful at owning or independently managing a business. You need the freedom to make your decisions, based on your ideas. You can be an astute politician. You also possess the ability to influence the opinions of your milieu.

The number 1 symbolizes the front-runner, pioneer, warrior, risk-taker, and daredevil. Generals, top politicians, successful businessmen, self-made millionaires, religious leaders, inventors, activists, and avant-garde artists are often born with a 1 Expression.

Strength and perseverance are central to your success. You must be willing to travel the frontiers of life, away from the beaten path. You possess a great reserve of willpower that must be directed at your goals. You do not give up, but relentlessly pursue your aims.

You are quite opinionated. People tend to be inspired or repelled by your strong personality. You have great powers of concentration and the ability to visualize your goals, thus making them more attainable. You stand up for your convictions and hold your ground. All of these abilities enhance your chances of success in life.

There is a tendency to be self-centered. You can be domineering and, in the extreme, a bully. You can be highly critical of others, complaining that people lack the industry or determination you possess. But this lack of understanding can alienate friends and family members from you. You must learn to control this tendency to maintain harmony in relationships. Once you are convinced of the inherent correctness of your ideas, you stubbornly -- and sometimes rigidly -- defend and propagate them. Avoid obstinacy and antagonism. You must cultivate balance, compassion, and

perseverance.

Pride can be your downfall. You so powerfully identify with your goals and ambitions, you sometimes refuse to see a potential flaw or weakness in your well-laid plans.

You possess strength and determination, which, when applied to any endeavor you are committed to, will lead you to great success in life.

Test last new, your Expression is 3

You are optimistic, inspiring, outgoing, and expressive. People see you as cheerful, positive and charming; your personality has a certain bounce and verve that so powerfully affects others that you can inspire people without effort. All of this upward energy is a symptom of your tremendous creativity. Your verbal skills may well lead you into the fields of writing, comedy, theater, and music.

Yours is the number of self-expression -- rich in imagination and spirit. But you have to be careful not to scatter your talents. Your bane is that you often lack discipline and order in your life. Avoid becoming a "happy-go-lucky" spendthrift, escaping responsibility and commitment. You must learn to concentrate and focus. These are the keys to your success. You have great potential in the arts and areas that requires creative solutions to problems. You are able to perform leaps of imagination, providing unconventional ideas as if they suddenly descended from above. Hard work and focus, however, are the foundation for a successful future.

Though you possess great verbal skills, your mind tends to see life as pictures rather than in words. You have the ability to think abstractly.

Creativity is a sensitive faculty that is often suppressed in childhood. If you lack the confidence to pursue your ideas, you may divert your abilities into a scattering of trivial pursuits. To overcome this problem, you must make a choice. You have to limit your field of vision and the number of activities you engage in and bundle your energies into a single thrust. Focus your life; choose the area that you love the most and commit. There, you will find success. And a great deal of happiness.

Love, romance, and money are within your reach. You are aided by your friends and admirers. Often people appear out of nowhere to help you in key situations. Test, you have to learn to accept the involvement of others in your life. You are not a loner, nor are you particularly independent. You are social -- you need an audience and the support of others to fully realize your abilities.

On the down-side, you can be superficial, moody, and intolerant. You are emotional and sensitive, sometimes presuming criticism where none was intended. You can also be jealous and gossipy.

Beware of becoming cynical and sarcastic. These traits can suppress your natural creativity. Be goal-oriented. This is a practical, step-by-step approach to your larger ambitions. You possess the natural abilities to attain a high degree of excellence.

HOW YOUR EXPRESSION NUMBERS COMPARE

More than any other number in your chart, your Expression number reflects who you are as a whole person on a deep level (rather than the "face" you show to the world, described by your Personality number).

It cannot be over-emphasized how important it is to recognize that the same number in a different area of your chart will affect you differently. There may be times you read something that seems to directly contradict an earlier statement. Yet, if you take time to carefully think about the opposing information you might recognize that, being the complex individual you are, you carry the same contradictions. This is natural and true for all of us. You may excel at organization in one area of your life, while chaos rules in another. You may be tactful and sensitive in one setting, but direct and confrontational in another.

Be aware that it is more difficult to overcome negative traits you recognize in yourself when they are found in this part of the chart, than when they are found under the Life Path description.

Test and Test last new, your Expression Compatibility is 1 and 3

You are both fortunate to have formed one of the most charmed combinations for a happy, pleasurable, long-lasting relationship. The individualism and originality of the 1 (Test) combined with the creativity and "anything goes" attitude of the 3 (Test last new) creates an exciting and often adventurous relationship. Unlike many couples you play together, laugh together, and likely have inspirational and enlightening conversations.

The characteristics of the 1 make Test the central force in this relationship, while Test last new contributes by bringing the sunshine and lightness of heart that will help the two of you deal with obstacles more easily than other couples.

Despite the unusual number of positive aspects in this combination, you should be on the alert for potential pitfalls. Test values responsibility and loyalty and has a natural ability to put forth sustained effort in pursuit of goals and dreams. Test last new is more playful, creative, and restless, and changes direction easily, especially if a goal seems difficult to reach. (This could be frustrating for Test.) But paradoxically, it is precisely these differences that bring balance to your

relationship.

All in all, there is little negative to report about your combination. With an eye on potential challenges, continue to fully explore your respective natural qualities and enjoy a happy, enriching and rewarding life together for many, many years. You can develop your relationship to (near) perfection.

THE HEART'S DESIRE

The Expression number described above points to a more productive side of your life. Your Heart's Desire reflects a deeper, inner you; it suggests an underlying urge, your true motivation, and the general intention behind many of your actions. It reveals the environment and lifestyle you prefer, as well as your likes, dislikes, and the type of people you are drawn to. Consequently, it dramatically influences the choices you make in life.

It makes sense that the vowels of your name are the foundation for your Heart's Desire. Vowels are the peaks and valleys of a language. Notice how vowels leave your mouth in a free-flowing breath. Try it: Aaaa.... Eeee.... Oooo.. Consonants though, are cut off either at the beginning or in the end.

You might say that it is in the flow of your breath that you express your deeper self.

Test, your Heart's Desire number is 2

You want peace and harmony in all aspects of your life. You want to devote your life to someone or something. You fall in love easily. You are extremely sensitive and emotional. You can be sentimental, and you cry at sad stories. You need friends and society. You appreciate the refinements of life. You desire comfort and security. You have refined taste and can be a connoisseur. You love music and possess a good deal of musical talent. Your sensitivity is a symptom of your highly developed intuition. But you must learn to trust it.

You are a gentle soul and shy away from confrontation if possible. You experience a battle within when you do not believe you can handle a situation; this may have a paralyzing effect on you. You prefer to give in when you should assert yourself. You must learn to be more decisive. Very often, you are afraid to use your own power in the face of someone else's aggressiveness. You incorrectly perceive yourself to be in a weaker position; you may ultimately give in merely to avoid a fight. Conversely, you are extremely diplomatic and tactful. You like to accomplish things through quiet persuasion. You dislike force.

You must fight uncertainty and doubt. You need to develop confidence and a willingness to stand up for what you believe to be right.

You function best in a supportive role, guiding the more public person in quiet, unobtrusive, yet essential ways.

Test last new, your Heart's Desire number is 3

You love a good time. You are generally happy, friendly, and outgoing. You have a gift for gab. You are very witty, creative, and playful. You inspire and entertain people. You are considered by many a great companion. Many outstanding comedians have this Heart's Desire. You have a good mental and emotional balance and there is little that gets you down.

You have a gift for self-expression and are drawn to the verbal arts -- writing, acting, singing, and poetry. You may have a great talent in one of these areas. If your creativity is blocked or suppressed, you tend to daydream and fantasize. Your imagination needs a constructive outlet; otherwise, it may run away with you.

At the same time, you may have great difficulty expressing your deeper feelings and important personal thoughts. You prefer to stay on the surface, entertaining people with your wit. If you fail to deal honestly with your inner nature, you may succumb to compulsive talking. Such behavior may be merely a way of siphoning off emotional energy that is building beneath your surface. Your deeply felt emotional life cannot be avoided or suppressed. But you possess the talent to channel these feelings into highly creative and artistic form. Art and self-expression are your outlets.

You need discipline to make full use of your abilities. Too often, you may scatter your energies in many directions, beginning projects that are never finished and never really succeeding in anything. Your success depends on your ability to commit to your work and to see it through to completion. You have so much creativity and inspiring upward energy that you are in desperate need of an anchor. Hard work and discipline serve this purpose and bring out the best in you.

Because you are gifted with such a sparkling personality, you are tempted to stay on the surface and play with life. You are confident and love the attention others give you, but these characteristics can lead to vanity and self-absorption.

You have the potential to live a very full and successful life thanks to your talent for artistic self-expression. The key to your success is a balance between the creative forces and self-disclose.

HOW YOUR HEART'S DESIRE NUMBERS COMPARE

Compatibility of the Heart's Desire number is very important in a relationship. Few relationships last beyond the initial stage if these numbers are not harmonious.

Test and Test last new, your Heart's Desire Compatibility is 2 and 3

Test, with the sensitive 2 as your number, you may find it difficult to handle criticism and confrontation (which has the potential to make you hold a grudge). Just the opposite, Test last new's 3 gives them the innate ability to allow negative comments to roll off without doing much damage. This does not mean Test last new cannot be hurt, but simply that they do not allow such things to spoil the day. These differing approaches regarding emotional issues could create conflict between you.

Sometimes a little tactless, Test last new might speak before thinking, not realizing the effect their comments will have on Test. However, when "little things" grow into big emotional issues in which even Test last new is strongly affected, Test last new will respond passionately. Although Test last new tends to be less affected by criticism or an emotional exchange, they have less control of their emotions. This might lead to expressing anger and sharp words that could hurt Test, damaging the relationship.

Test might respond with a few angry words but will more likely just withdraw. If this happens, a hard kernel of resentment wrapped in confusion can develop and sometimes remain hidden for a long time. Since Test may not always think clearly when emotions are in play, and may walk away from confrontation, they could eventually become so discontent that it would take everything Test last new has to bring them back.

On a positive note, the combination of 2 and 3 is very passionate and strong. If Test last new keeps verbal impulses under control, and Test has enough self-confidence to handle occasional criticism, the relationship has every chance of bringing lots of love and joy to your life.

Often, the combination of 2 and 3 in this area of the chart enhances both parties' creativity. The sense of harmony and rhythm associated with the 2 merges beautifully with the creative powers of expression so native to the 3. Your relationship can be strengthened enormously by sharing creative interests.

Keep in mind that beauty and love are the foundation of your relationship. The key to weathering your differences is to discuss issues openly and frankly, with tact and sensitivity as soon as they arise.

THE PERSONALITY

The consonants of your full name at birth are the foundation of your Personality number, which is a little like a narrow entrance hall to the great room that is your true nature. It's the outer layer of your personality, the part you feel comfortable sharing. With time and trust, you invite others into the deeper aspects of your nature.

Your Personality number serves as a censoring device in terms of what you send out, as well as whom and what you allow to approach. For this reason, your Personality is usually narrower and more protective in its definition than the real you. It also gives an indication of how others perceive you.

Test, your Personality number is 8

You appear strong and powerful. You have an impressive personality and can influence and even intimidate through sheer force. You have natural authority. Your competence and enthusiasm attract people with resources. You radiate confidence. People defer to you because they sense your sureness and effectiveness. You also exude a kind of controlled benevolence. People sense that you are generous, once you are convinced of the worthiness of the cause.

It is important for you to dress well. You radiate a kind of raw power and able-ness which needs to be refined and enhanced by your clothing. You may even dress a bit flashy, but that will not harm you. Quality is among your highest priorities and should reflect in your clothing. Although most eights have a strong constitution, they can be prone to indigestion, ulcers, and heart disease due to their reckless eating and drinking habits and their propensity to be workaholics.

Your Achilles heel is your capacity for an egocentric attitude. The negative side of your personality can cause you to be ruthless, greedy, and intensely lonely. Conversely, you can be spontaneous and excited. You are essentially warm and jovial. In your heart of hearts, you want everyone to be as excited and as happy as you. Those who are around you often sense this. Your coworkers and employees usually like you.

Test last new, your Personality number is 9

You have an impressive and aristocratic bearing. No matter how tall you are, you appear noble and upright. You are very much in control of the image you send out to others. Many actors, dancers, and other performers have a 9 Personality Number.

You are elegant, graceful, and charismatic. Many admire you. You have the kind of stature that pulls people to you or repels them intensely. Some are jealous of you and may seek to belittle you. You may encourage this to some extent by the amount of arrogance you radiate. This is a caution for all 9 Personalities -- they are sometimes aloof and hold themselves above the world. Your challenge is to come down to earth with your fellow man.

Conversely, you have a great compassion for humanity and want to dedicate yourself to improving the lot of others. You are better when dealing with the trials of the many than the trouble of a single person. You are more capable of working on the grand scale, addressing the needs of society, than on a one-to-one basis.

You are kind and sympathetic, helpful and compassionate. Behind the controlled and calm facade, you are sensitive, vulnerable and emotional.

You have excellent taste. There is a good deal of artistic talent in you that shows in your home environment and your clothing. You tend to see yourself as a guardian of society, a benevolent leader, guiding and directing your community toward a better world.

HOW YOUR PERSONALITY NUMBERS COMPARE

Your Personality is the first aspect people notice when you first meet. Very few relationships have a chance to progress if their Personality numbers are not compatible.

Test and Test last new, your Personality Compatibility is 8 and 9

Test and Test last new, this part of the chart reveals two numbers at opposite ends of the spectrum. The 8 and 9 have almost nothing in common and are not considered compatible, yet they are often strongly attracted to each other. Interestingly, this attraction can remain compelling and fresh for many years because there is always something new to discover in each other.

A go-getter with big dreams and expectations, Test (the 8) has a good chance to turn many of those dreams into reality because they are highly motivated and willing to put forth enormous effort to reach a goal. It is the nature of the 8 to direct energy toward accumulating wealth and power, so

for Test, this is natural and healthy.

Test last new is equally focused but driven by completely different priorities and motives. The 9 in their chart is motivated by the work itself and the way it affects the lives of others, rather than financial gain or material success. The 9 will rarely find happiness or achieve success if motivated by worldly desires; Test last new finds personal reward when driven by humanitarian motives.

Obviously, your priorities are as different as night and day, yet both are as they should be. You will often find yourselves at opposite sides of a discussion and will rarely agree when it comes to practical matters. For a happy relationship, you will both need to recognize and respect your differences. If you take each other for granted or begin to feel you can predict and control your partner, your relationship will be in trouble. The keyword in this relationship is respect. If you respect each other, disagreements - of which there will probably be many - will not weaken your foundation.

MATURITY NUMBER

Your Maturity number indicates an underlying wish or desire that gradually surfaces at around age 30 to 35. A direction begins to emerge as you gain a better understanding of yourself. With this self-knowledge comes a greater awareness of who you are, and the direction you want to set for your life.

Test, your Maturity number is 7

As you mature, you will become increasingly occupied with the larger questions of life, reading, contemplating and searching for a deeper understanding of who you are and what this life is all about. You may turn to philosophy or religion, but will likely examine a wide array of areas, broadening your knowledge in many disciplines.

Your intuition grows stronger, as does your ability to look beneath the surface of every subject you study. You are able to analyze abstract questions and live according to your higher ideals. You may find yourself needing more time alone; your need for privacy will likely increase.

If you already have several sevens in your chart, you will have to guard against becoming withdrawn, and alienated. If you have no sevens, you will now have the ability to deepen your understanding of one particular field. You will have the opportunity to become grounded in a particular area of study.

Test last new, your Maturity number is 6

As you mature, you will become increasingly concerned with the well-being of family, friends, and community. You will be drawn to the role as healer, counselor, and teacher. You have a growing ability to give comfort and sound advice to those in need. You naturally assume the role of patriarch or matriarch of those in your care, no matter how old they are. You become more responsible and protective.

You may well become involved in environmental protection, volunteer work or politics. You are naturally idealistic and strive to realize those ideals as you grow in maturity and in personal resources.

Your careful and balanced approach to business and financial matters provides you with sound and secure success later in life. The 6-maturity number provides an outstanding financial foundation for the future. In addition, the influence of the 6 promises an old age surrounded by loved ones.

For those who have few 6s in the chart, or none at all, this Maturity Number promises the close relationships that you have striven for most of your life.

HOW YOUR MATURITY NUMBERS COMPARE

Your Maturity number becomes more dominant with age. The texts below become increasingly important after about age 40.

Test and Test last new, your Maturity Compatibility is 7 and 6

The 6 and 7 often have a love-hate relationship, so it is uncommon to find it in romantic partners. Where the 6 is strongly committed and motivated by emotions and a need for romance, the 7 is an intellectual and somewhat secretive and distant. Test last new (the 6) requires a physical and emotional connection; Test seeks an intellectual bond. This has nothing to do with the ability or desire to love, since no number is more capable of loving than any other. But challenges can arise when people have dramatically different views or strikingly different approaches to important concerns.

Every number expresses love in a unique way. Test last new's 6 in this part of the chart is mainly influenced by emotions and depends on expressions of love to feel safe and secure in a relationship. Test's 7 is more independent, which enables them to feel comfortable in a relationship even when deep personal feelings are not shared.

Unless this fundamental difference is understood and accepted, it can become a problem in your relationship. Test last new may, at times, feel Test is cold and aloof, and not as attentive as they would like. Test needs a certain amount of distance, space for quiet contemplation, daydreaming,

and just being alone. When they are in that state of mind, even Test last new's loving attention could feel like an annoying disruption.

When couples are unable to accept these diverging viewpoints and approaches, it can bring much unhappiness. Interestingly, despite these contrasts, the relationship often remains unbreakable. When this happens, although the differences are often obvious to others, they probably go unnoticed by the two of you. People may wonder what keeps you together when you seem so different on all fronts.

Of course, the 6 and the 7 also have the potential to create a happy, long-lasting relationship. The key is simply to recognize the fundamental difference in the way you express your love. Test last new must realize that even when Test seems distant, their love is not absent in any way. And Test may have to accept the fact that Test last new needs frequent reassurance (and will likely demand attention if you are remiss in demonstrating it).

Keep in mind that this is just one area of your chart; other numbers and influences could mitigate these differences. However, the 6 and 7 will always have their unique approaches to love (and romance).
