

New Decoz Numerology Master program upgrade

I am designing a new front end, so for now, just use something generic. Please devote as little time to the interface as needed, use place holders, basically

Added functionality Numerology Assistant:

For now, I am calling it **The Numerologist Assistant** (may change).

Its purpose is to guide numerologists doing person-to-person consultations by zoom or otherwise, to print out a report prior to the consultation and use it as a guide.

- **What it should do:**
Create *customizable (same as regular readings)* Personality Profiles, Yearly Forecasts, and Relationship reports with chapters in bullet-point lists. (May add the Diamond and Inner Reflections at some later date.)
- **What it needs:**
A mirror database for all the content with all the text files for the Personality Profiles, Yearly Forecasts, and Relationship Reports, but instead of full chapter-like text files for each number, it has only a bullet-point list.
For example:
If someone has a 1 Life Path, a standard report would include about a page and a half of content describing the 1 Life Path. In the Numerologist Assistant, it would include only a short bullet point listing the most important aspects of a 1 Life path
- **What it does NOT need:**
Formatting options, introductions.
- **Other details:**
Don't worry about output options yet - I have not decided what the output should be, but probably as word docs allowing for adding, editing, etc.
A "save as" option that sends it to the user's hard drive, or cloud, or whatever
- **Enduser should be able to re-arrange** the order in which the chapters appear.

The Master Program

Look at the old Master program regularly – I want the new one to be very similar, but greatly expanded.

1. Installs on PC and Mac desktops – later *maybe* on mobiles, or have a minimized version for mobiles.

2. A 100% fully functional trial version that creates sample reports on the fly, exactly as the activated version would, but based only on a dozen or so names and birthdates that can't be altered.
3. Customizable covers
4. Customizable introductions
5. Allows for report generation without Internet connection but requires a verification once a month or is disabled.
6. Copyright protection notices on the bottom of every page. (Like we have in the reports for members)
7. Title pages that can't be altered – at least not easily following PDF output.
8. Requires internet connection for updates, and access to some files, like cover design changes, customized introduction changes, and monthly verification.
9. All text content databases (or whatever format we use) should be and whatever else is needed to create a report, should be installed on the desktop.
10. Multiple languages, most likely by duplicated text databases with other languages, unless there is a "Translate this" feature built in? I am assuming that would require an Internet connection? Thoughts? THIS IS NOT A HIGH PRIORITY - WOULD BE OKAY TO ADD TO A FUTURE UPDATE.
11. Text/Content should be encrypted to prevent copyright issues.
12. Reports generated should be saved on the computer only. No copies on the server.

Reports requiring extensive customization

- IMPORTANT DIFFERENCES WITH THE CURRENT READINGS IN THE APP AND ON THE WEBSITE:
The order in which the chapters appear will be different from the readings we currently offer in the app and on the site. It should be in the same order as they are showing in the dialog box below.
- Personal Day (Daily Forecast) text files will be different from the ones in the app.

13. The following reports should be included with extensive customization – an example shown on these dialog boxes – I love the simplicity of these dialog boxes, and that you can control so much from each dialog box to *(Not all reports require customization this specific, only Personality Profiles and Future Forecasts – Relationship reports, Diamond Report, Lucky*

Numbers, to a lesser extent):

Topic Selection ✕

Select the topics you wish to include in your report.

* Birth Date: month day year

a. Personality Profile – include/exclude every topic

Select the topics you wish to include in your report.

<input checked="" type="checkbox"/> Table of Contents	<input checked="" type="checkbox"/> Rational Thought
<input checked="" type="checkbox"/> Chart Summary	<input checked="" type="checkbox"/> Cornerstone
<input checked="" type="checkbox"/> Introduction	<input checked="" type="checkbox"/> Subconscious Self
<input checked="" type="checkbox"/> Life Path	<input checked="" type="checkbox"/> Challenges
<input checked="" type="checkbox"/> Birthday	<input checked="" type="checkbox"/> Pinnacles
<input checked="" type="checkbox"/> Expression	
<input checked="" type="checkbox"/> Minor Expression	

save preferred selections in presets

<input type="checkbox"/> E	(setable)	<input type="button" value="Set"/>
<input type="checkbox"/> F	(setable)	<input type="button" value="Set"/>
<input type="checkbox"/> G	(setable)	<input type="button" value="Set"/>
<input type="checkbox"/> H	(setable)	<input type="button" value="Set"/>

and have presets already included

Preset combinations

<input type="checkbox"/> A	Short Profile
<input type="checkbox"/> B	Full Profile
<input type="checkbox"/> C	Forecast only
<input type="checkbox"/> D	Day by Day Forecast

b. Yearly Forecast – include/exclude every topic, set cycle durations – see first dialog box above, which covers both profiles and forecasts

<input checked="" type="checkbox"/> Expression	<input checked="" type="checkbox"/> Challenges
<input checked="" type="checkbox"/> Minor Expression	<input checked="" type="checkbox"/> Pinnacles
<input checked="" type="checkbox"/> Hearts Desire	<input checked="" type="checkbox"/> Cycles
<input checked="" type="checkbox"/> Minor Hearts Desire	<input checked="" type="checkbox"/> Transits: Physical
<input checked="" type="checkbox"/> Personality	<input checked="" type="checkbox"/> Transits: Mental
<input checked="" type="checkbox"/> Maturity	<input checked="" type="checkbox"/> Transits: Spiritual
<input checked="" type="checkbox"/> L/E Bridge	<input type="checkbox"/> Essence
<input checked="" type="checkbox"/> H/P Bridge	<input type="checkbox"/> Personal Years
<input checked="" type="checkbox"/> Karmic Lessons	<input type="checkbox"/> Personal Months

But has a separate dialog box for setting the lengths of cycles.

Indicate the years for which you would like Pe

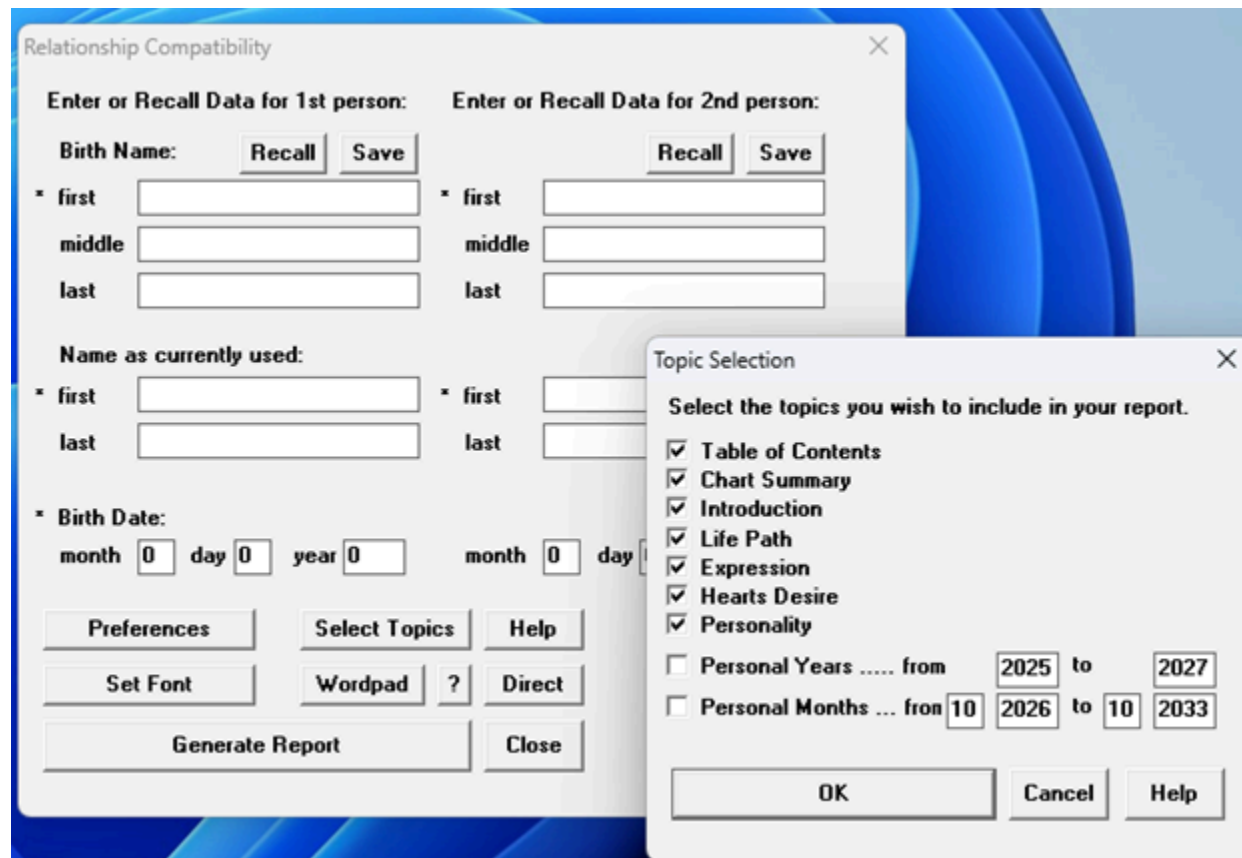

First year Last year

Indicate the months for which you would like I

First month of year

Last month of year

- c. Relationship Profile and Forecast – include/exclude every topic – set cycle durations (a lot less topics and cycles are included than Personal Profiles and Forecasts)

- d. Diamond Reading - only customization is setting the number of years (not months) to include in a report.
- e. Lucky Numbers - only customization is setting the number of months *and* years to include in a report.
- f. Chart Calculator - only customization is setting the number of months and years to include.

Some of the

Reports requiring no customization (other than cover page and main introduction)

14. The following reports would have **no customization** options – they are just like the ones we produce on the site:

- a. Talent Profile
- b. Ancestral Influences
- c. Inner Reflection reading
- d. Name Advisor for Business
- e. Name Advisor for People
- f. Address Analyzer
- g. Phone Number Analyzer
- h. Lost Object Finder
- i. Proportional Chartmaker
- j. Decoz Color Chartmaker

15. Some customization that is not in the Online program or the web app:

Select from three different options how to calculate the Life Path – would apply to all readings that include Life Paths:

- a. Personality Profile
- b. Relationship Profiles

16. Also: User should be able to select include or exclude the images – the numbers in circles that we have in our reports.

17. Some customization that is in the old Decoz Numerology Master program, but we may not need or save for a later update: Formatting options, except font size and font type – we need that, output options. (PDF only)

18. Features to include that are similar to the web app:

- a. SAVED READINGS
- b. SAVED BIRTH DATA (including partners in relationship reports)

Purchase and Payment options:

The following modules would be sold separately or bundled - all would require only a one-time payment, there are no additional costs, no subscriptions or pay per report:

The Personality Profiles and Yearly Forecasts only. One price. No additional costs.

The Relationship Profiles and Forecasts only. One price. No additional costs.

The Numerology Assistant only. One price. No additional costs.

The full bundle without the Numerology Assistant. One price. No additional costs.

The full bundle (the complete program). One price. No additional costs.

The Admin

From the admin I should be able to control the following:

- I. Disable/Enable users
- II. Delete/Restore users
- III. Track usage (number of reports created by each professional – not to control, just for the data)
- IV. Activation codes? Or just use Disable/Enable?
- V. Comments or notes I can store with each user
- VI. Notifications
